 - b. Grants may also be made to units of government for public purposes. This includes Native American tribal governments.

Designated Funds

Before establishing a Designated Fund, the Foundation verifies that the proposed designee is a public charity or unit of government. Grants generally are paid once each year.

Agency Endowment Funds

Before establishing an Agency Endowment Fund, the Foundation verifies that the organization seeking to establish the fund is a public charity. If a unit of government, such as a public library, asks to establish an Agency Endowment Fund, the Foundation will consult with counsel to determine whether this is permissible under the law of Mississippi. Agency grants are paid out to the relevant organization named in the fund, generally once each year.

Grants from Donor Advised Funds

1. The Foundation will not make the following types of grant from a Donor Advised Fund:
 - a. Grants to individuals, including grants payable to a school, college or university for the benefit of an individual selected by the Foundation.
 - b. Grants or other similar payments, including expense reimbursements, to donors, advisors, and related parties.
 - c. Any grant for a purpose that is not charitable.
 - d. Any grant to a private non-operating foundation.
2. The Foundation will make grants from Donor Advised Funds to most public charities and units of government.
 - a. The Foundation will follow the verification process outlined in steps 4 and 5 above to verify public charity status.

- b. In addition, the Foundation will follow the Process for Determining Supporting Organization Status outlined in the next section to determine whether a potential public charity grantee is a Type III supporting organization that is not functionally integrated or supports an organization controlled by the donor, fund advisor, or related persons. If either of these conditions is present, the Foundation will either refuse the grant or exercise expenditure responsibility.
3. The Foundation will not normally make grants from Donor Advised Funds that require the exercise of expenditure responsibility. This includes grants to nonprofit organizations that are not public charities and grants to businesses.
4. If the Foundation elects to make an expenditure responsibility grant, it will follow the following process:
 - a. The Foundation will conduct a pre-grant inquiry to determine whether the proposed grantee is reasonably likely to use the grant for the specified purposes and that those purposes are charitable.
 - b. The Foundation and grantee will sign a written Fund Agreement that includes all provisions required by Treasury Regulations.
 - c. The grantee will be required to maintain the grant funds in a separate account on the grantee's books.
 - d. The grantee will be required to submit a written report summarizing the project promptly following the end of the period during which it used all grant funds and to submit any interim reports the Foundation may require

Process for Determining Supporting Organization Status

Supporting organizations receive public charity status from the IRS due to their particular relationship with another publicly supported charity or government unit. Based on that relationship, a supporting organization is defined as Type I, Type II, or Type III. Type III supporting organizations are further defined as functionally or non-functionally integrated. The Foundation must exercise expenditure responsibility if it makes grants from a Donor Advised Fund to any type of supporting organization that supports a public charity which is controlled directly or indirectly by the donor, donor advisor, or a related person. Expenditure responsibility is also required for grants to any non-functionally integrated Type III supporting organization.

The Foundation will take the following steps to determine whether a grant recommendation from a Donor Advised Fund requires expenditure responsibility because the grantee is a supporting organization:

1. Verify that the organization is a public charity by checking its status in IRS Publication 78, the organization's IRS determination letter, or IRS Business Master File (BMF).
2. Determine if the public charity is a supporting organization from one of the following sources:
 - a. The IRS Business Master File (BMF) and the potential grantee's IRS determination letter, or
 - b. A report from a third party that includes:

- i. the grantee's name, EIN, and public charity classification under §509(a)(1), (2), or (3);
 - ii. a statement that the information is from the most currently available IRS monthly update to the BMF, along with the IRS BMF revision date;
 - iii. the date and time of the grant-maker's search. The grant-maker must retain this report in electronic or hard-copy form.
 3. Determine the type of Supporting Organization from one of the following sources:
 - a. With respect to Type I or Type II supporting organizations a written representation signed by an officer, director, or trustee of the grantee if both of the following are true:
 - i. The representation describes the process used for selecting the grantee's officers, directors, or trustees and references the pertinent provisions of the grantee's organizing documents that establish the grantee's relationship to its supported organization.
 - ii. The grant-maker collects and reviews copies of the grantee's governing documents. If the grantee's governing documents are not sufficient to establish the relationship, the grant-maker must also collect organizing documents from the supported organization.
 - b. To determine whether a Type III supporting organization is functionally integrated the Foundation will do the following:
 - i. Obtain the grantee's written representation identifying the organization it supports.
 - ii. Collect and review the grantee's organizing documents (and those of the supported organization if necessary).
 - iii. Collect a written representation signed by an officer, director, or trustee of each supported organization stating that substantially all of its activities directly further the exempt purposes of the supported organization and, but for the involvement of the supporting organization, its activities are ones that normally would be engaged in by the supported organization.
 - c. Alternatively, the Foundation may rely on a reasoned written opinion of counsel of either the grantee or the Foundation in making the determination that a supporting organization is a Type I, Type II, or functionally integrated Type III supporting organization.
4. Once the Foundation has determined that a potential grantee is a supporting organization and is not a Type III non-functionally integrated supporting organization (for which expenditure responsibility is automatically required), the Foundation, will determine whether the donor, donor advisor, or related parties control the supported organization.

- a. Control will be found to exist if any donor, donor advisor, or related persons may, by aggregating their votes or positions of authority, require a supported organization to make expenditure, or prevent a supported organization from making expenditure.
- b. The Foundation will request certification from either the donor or advisor or directly from the supported organization that the donor, advisor, or related parties do not control the supported organization.
